PROFESSIONAL SUMMARY

Analytical and detail-driven Data Analyst skilled in Excel, Python and dashboard reporting. Experienced in transforming raw data into actionable insights that reduce risks and support business decisions. Built Excel-based tools for inventory tracking, expiry analysis and automated calculations, improving efficiency and visibility of product lifecycles. Also brings UI/UX and web development expertise to communicate insights clearly and make business tools user-friendly.

CORE SKILLS

- Data Analysis: Excel (dashboards, formulas, data cleaning), Python (data wrangling basics)
- Reporting & Visualization: Pivot Tables, Charts, Validation Rules; familiar with Power BI/Tableau concepts
- Web & UI/UX: HTML, CSS, JavaScript, WordPress, Responsive Design, Figma prototypes
- Soft Skills: Communication, Problem-Solving, Time Management

PROJECT EXPERIENCE

Data Analyst – Sammy Foods Inventory Management (Excel Project) – Aug 2025

- Designed an Excel-based inventory system to track product counts, expiry dates and stock status.

- Automated reporting with formulas and validation rules, reducing risk of expired products.
- Built dashboards highlighting production trends that guided waste-reduction decisions.

Data Analyst – Mayowa Store Automated Calculator (Excel Project) – Jul 2025

- Created an Excel calculator to record items, prices and quantities, automatically generating total purchase costs.
- Reduced human error and improved transaction speed by automating manual calculations.

School Grading System (Excel Project) – Sep 2025

- Developed an Excel tool to automatically compute total score, percentage, average score, failed subjects and status reports for students.
- Increased grading accuracy and reduced manual effort for teachers.

Community Moderator – Blum Telegram Group (Blum Airdrop) – Feb 2025 – May 2025

- Answered 50+ weekly queries, guiding 5,000+ members through tools and resolving issues.
- Verified opportunities and flagged scams, improving trust and engagement.

Freelance Creative & Web Solutions (Remote) – 2019 – Present

- Collected and interpreted client requirements, building 15+ responsive websites with clear, data-driven layouts.
- Created visual reports and graphics that supported client campaigns and increased visibility by 25%.

EDUCATION

Higher National Diploma (HND), Software & Web Development – Federal Polytechnic Offa, Kwara State, Nigeria - *Expected Oct 2025*

- Focus: Software and Web Development

- Capstone Project: Developed a responsive crypto airdrop platform designed to onboard users to the next wave of token distribution, using HTML, CSS and JavaScript

National Diploma (ND), Computer Science – Federal Polytechnic Offa, Kwara State, Nigeria –
2018 - 2020

- Focus: Software and Web Development
- Built foundational skills in programming and design

CERTIFICATIONS

- Data Analysis with Python – AQskill, Jul 2025
